Introduction

This document serves as a guide to the JSE's sustainability disclosures for 2023.

It is structured in a matrix format and provides easy-to-follow cross-references to the ESG metrics and narrative disclosures in each of the reports that make up the JSE's integrated reporting suite for 2023.

The JSE's Sustainability Disclosure Guidelines published in June 2022 provide a comprehensive framework for sustainability disclosures by South African companies. The JSE has adopted these Guidelines and is on a journey to enhance our reporting over time to align with these Guidelines and with the Task Force for Climate-related Financial Disclosures (TCFD), these can be found in the 2023 sustainability report.

This disclosure is also available in an online tool to provide stakeholders with a more interactive alternative to engage with this content.

We welcome feedback on our reporting. Comments on our sustainability disclosures to ir@jse.co.za $\,$

Reporting suite

Our full reporting suite is available at https://group.jse.co.za/investor-relations/reporting-suite and comprises the following reports:

Sustainability disclosure matrix

Sets out the JSE's sustainability disclosures for 2023 and is designed as an online tool available on the JSE's website. It provides easy to follow

Integrated annual report

Sets out how the JSE creates value in the context of our business model, strategy, operating context, governance and operational performance.

Set out our financial results, with the Group Audit Committee (GAC) report, directors' report and annual financial statements prepared in accordance with International Financial Reporting Standards (IFRS).

Notice of AGM and proxy form

Sets out the notice of the JSE's AGM of shareholders to be held on Tuesday 7 May 2024, together with the summarised report containing the required financial disclosures.

Governance and remuneration report

Presents the JSE's governance philosophy and priorities, and includes our remuneration policy and implementation report.

Sustainability report

Sets out our approach to sustainability and our commitments to support and drive sustainable value creation.

Annual results booklet

Contains the annual results presentation, summarised consolidated annual financial results and ordinary cash dividend declaration

| | С | Waste intensity: total waste per material unit (e.g. sales revenue, unit of production, or other). | |
| Single-use plastic | L | Report wherever material along the value chain: estimated metric tonnes of single-use plastic consumed and share (percentage) of single-use plastic weight of total plastic weight. | Commentary: The JSE is in the process of refining our data collection on pollution and waste activity and we will |
| Atmosphere pollution | С | Report wherever material along the value chain: nitrogen oxides (NOx), sulphur oxides (SOx), volatile organic compounds (VOC), persistent organic pollutants (POP), particulate matter, and other significant air emissions identified in relevant regulations. | report our progress in due course. |
| | L | Wherever possible estimate the proportion of specified emissions that occur in or adjacent to urban/densely populated areas. | |
| Water pollution | L | Total water discharge to all areas in megalitres, and list of priority substances of concern for which discharges are treated, including how these substances were defined, approach to setting discharge limits, and number of incidents of non-compliance with discharge limits. | |

| Supply chain (environmental) | L | Report wherever material across the supply chain: mechanisms (e.g. supplier screening, and audits) to identify and address significant actual and potential negative environmental impacts, nature of these impacts, and measures to address these. | |
| Materials of concern | С | Process to identify and manage emerging materials and chemicals of concern in products (materials of concern could include conflict minerals or recognised high impact raw materials such as palm oil). | Commentary: Considering the nature of the JSE's business as a financial market infrastructure, this is a metric we wi evaluate over time. |
| | L | Percentage of materials identified in point 1 above that are covered by a sustainability certification standard or formalised sustainability management programme. | |
